Title: tbDIS - Opportunistic infections

Subject: HICDEP - Hicdep_1.60/TableDis

Version: 2

Date: 08/18/18 14:16:00

Table of Contents

tbIDIS - Opportunistic infections	3
Core fields	3
Additional fields	3
QA Checks	3

tbIDIS - Opportunistic infections

holds type and date of CDC-C diseases.

Core fields

Note: Fields marked **bold** form the unique identifier for a record of the table.

Field name	Format	Description
PATIENT	character (or numeric if possible)	Code to identify patient (Cohort Patient ID)
DIS_ID	character. see coding table for valid codings.	Code to identify event
DIS_D	yyyy-mm-dd	Date of event
DIS_WD	numeric. see coding table for valid codings.	Means of diagnosis
DIS_OTH ¹	character	Other location, only to be filled out if code alone is not sufficient

¹ DIS_OTH might be part of the record's unique identification

Additional fields

Please see [tblAE - Adverse Events](#) for specification on optional fields.

Field name	Format	Description
DIS_ED	yyyy-mm-dd	End of opportunistic infection

QA Checks

Table	Crosstable	Error Code	Description	Study specific	HICDEP?
AllTables	CrossTable	ATC001	any date in database after DEATH_D in tblLTFU		YES
AllTables	CrossTable	ATC002	any date in database after DROP_D in tblLTFU		YES
AllTables	CrossTable	ATC003	any date in database before BIRTH_D in tblBAS		YES
AllTables	CrossTable	ATC004	any date in database in the future		YES
AllTables	CrossTable	ATC005	patients submitted previously who have been missed out		YES
AllTables	CrossTable	ATC006	Any fields not coded as coding lists on table definition		YES
tbIDIS	WithinTable	DW001	Duplicate records for same DIS_ID and same DIS_D		YES
tbIDIS	WithinTable	DW002	Miscoded DIS_WD as codes on table definition		YES

tblDIS	WithinTable	DW003	Miscoded DIS_ID - as in code list attached to table definition		YES
tblDIS	WithinTable	DW004	DIS_D missing		YES
tblDIS	WithinTable	DW005	DIS_ID missing		YES
tblDIS	WithinTable	DW006	Same event recorded twice - 2 records, same DIS_ID, DIS_D within 6 months		YES
tblDIS	WithinTable	DW007	DIS_ED present but before DIS_D		YES
tblDIS	CrossTable	DC001	Patient has no record in BAS		YES
tblDIS	CrossTable	DC002	AIDS-defining records, yet AIDS=0 in tblBAS		YES
tblDIS	CrossTable	DC003	First AIDS-defining DIS_D not equal to AIDS_D in tblBAS		YES
